

Abheri Chakraborty

WordPress Developer | Frontend Developer | Full-Stack Enthusiast

Introduction

I am a WordPress Developer with over 1 year of experience, specializing in building modern, responsive, and high-performance websites. I help businesses establish a strong online presence by developing custom themes, optimizing website speed, and ensuring security best practices. My expertise lies in solving technical challenges such as plugin conflicts, performance issues, and seamless third-party integrations.

Throughout my career, I have tackled various challenges, from resolving site downtime issues to optimizing database performance, ensuring smooth user experiences and increased engagement.

Work & Experience

Minerva Infotech (March 2025 – Present)

Role: Frontend Developer

Problem 1: CRUD Application Development (Mar 2025)

- **Challenge:** The team required a dynamic web interface to manage internal data efficiently.
- **Solution:** Designed and developed a complete CRUD application using PHP and MySQL with proper form validation and UI responsiveness.
- **Impact:** Improved workflow and data handling efficiency, saving time for internal teams.

Problem 2: Plugin Conflict Resolution – MiDigital Website (Apr 2025)

- **Challenge:** A plugin conflict was affecting core features on the MiDigital website.
- **Solution:** Analyzed plugin behavior, debugged the conflict, and resolved it with code-level adjustments.
- **Impact:** Restored full site functionality, preserving user experience and business continuity.

Problem 3: Website Development – MiDigital

- **Challenge:** The client required a clean, fast, and responsive website for their automation services brand.
 - **Solution:** Developed the full website using WordPress, ensuring mobile responsiveness, speed optimization, and on-brand visuals.
 - **Impact:** Successfully launched MiDigital AutoPilot, enhancing their digital presence and lead generation potential.
-

Opensaas Solutions PVT LTD (August – December 2024)

Problem 1: Website Performance Optimization (Aug 2024)

- **Challenge:** A client's e-commerce site had slow load times, negatively affecting conversions.
- **Solution:** Implemented caching strategies, image optimization, and minified CSS/JS.
- **Impact:** Achieved a 40% improvement in page speed, reducing bounce rates and boosting sales.

Problem 2: Plugin Conflict Resolution (Sep 2024)

- **Challenge:** A critical site feature broke due to a plugin update conflict.
- **Solution:** Debugged and identified the conflict, modified code, and ensured compatibility.
- **Impact:** Restored site functionality within 24 hours, preventing revenue loss.

Problem 3: Secure User Authentication System (Nov 2024)

- **Challenge:** A client required a secure login system with two-factor authentication (2FA).
- **Solution:** Integrated a custom authentication system with 2FA and encrypted password storage.
- **Impact:** Improved security, reducing unauthorized access attempts by 90%.

Problem 4: Performance Optimization for a News Website (Dec 2024)

- **Challenge:** A news portal with hundreds of daily visitors was suffering from slow page loads and downtime.

- **Solution:** Implemented lazy loading, database indexing, and server-side caching.
 - **Impact:** Boosted website performance by 35%, reducing downtime to <1%.
-

Addon Skills

Frontend Development (HTML, CSS, JavaScript, Java, Tailwind CSS, PHP)

- **Relevance:** Modern UI development is crucial for a seamless user experience.
- **Impact:** Ensures websites are visually appealing and highly interactive.
- **Expertise:** Advanced knowledge in frontend frameworks for responsive and scalable designs.

Website Security & Performance Optimization

- **Relevance:** Protects businesses from cyber threats and ensures smooth user experience.
- **Impact:** Helps maintain a secure and high-speed website.
- **Expertise:** Skilled in firewalls, SSL implementation, malware removal, and server optimization.

E-Commerce Integration

- **Relevance:** Critical for online businesses.
 - **Importance:** Enhances the shopping experience and sales.
 - **Impact:** Successfully integrated WooCommerce on multiple websites.
 - **Expertise:** Expertise in WooCommerce setup, payment gateway integration.
-

Tools & Technologies

- **Elementor** – Drag-and-drop page building for rapid development
- **WooCommerce** – E-commerce functionality for WordPress sites
- **Git & GitHub** – Version control and collaborative development
- **Google Analytics** – Website performance tracking and user behavior analysis

- **Cloudflare** – Enhancing site speed and security through CDN and DDoS protection
-

Career/Experience Mapping
